EARLY BIRD Registration - till March 25th, 2013

**Vanja** is an internationally recognized teacher, performer and DJ, who has worked in Europe and the United States. Dancing since she was 9 years old, in 2000 she discovered and immersed herself in Argentine tango, first as a follow and a year later as a lead too. In 2002 Vanja started teaching tango. In her classes she pays special attention to three key areas: precision of movement, creating a comfortable embrace for leads and followers, and musicality.

She shows how body mechanics and geometry are the basis for a great connection. Vanja's students value her keen eye, detailed and clear instruction, as well as her patience and kindness.
